| Git | TFS |

Continuous Integration

| Jenkins | VSTS |

SUMMARY

Very ambitious, creative and quick-learning software engineer with leadership skills, programming and architectural skills. I have experience with ASP.NET MVC, NodeJS, PostgreSQL, SQL Server, MongoDB, HTML5, CSS3, Bootstrap, JSON, XML and knowledge in application development with .NET platform and MEAN stack. Also understanding of algorithmic problems and data structures. Works with precision and a very good team player. Keen on keeping deadlines, has all his projects completed on time.
